# **Pupil premium strategy statement – Handforth Grange Primary School**

This statement details our school's use of pupil premium (and recovery premium) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year (2024-25) and the outcomes for disadvantaged pupils last academic year (2023-24).

## **School overview**

Detail	Data
Number of pupils in school	319 (R-Year 6)
Proportion (%) of pupil premium eligible pupils	12.2%
Academic year/years that our current pupil premium	2023-24
strategy plan covers (3 year plans are recommended –	2024-25
you must still publish an updated statement each academic year)	2025-26
Date this statement was published	27.09.24
Date on which it will be reviewed	20.09.25
Statement authorised by	Andrea Booth
	Headteacher
Pupil premium lead	Jessica Dolby
	Deputy Head
Governor / Trustee lead	Ben Holt
	Pupil Premium Governor

# **Funding overview**

Detail	Amount	
Pupil premium funding allocation this academic year £62,160		
Recovery premium funding allocation this academic year £0		
Pupil premium funding carried forward from previous years	£0	
Total budget for this academic year	£62,160	

## Part A: Pupil premium strategy plan

### Statement of intent

At Handforth Grange we have the very highest expectations of academic success, behaviour, excitement and fun. Our vision is that our school will create an excitement in, passion for, and foundation of academic knowledge and skills and the intellectual capital to live a choice-filled life for all our pupils, irrespective of their background or circumstance. We want our network of supportive adults to help all our children to develop strong values and behaviours alongside a rich curriculum of music, sport and the arts education to develop their social capital to live in an emotionally healthy way and we provide a wide variety of life-changing experiences which develop the children's cultural capital and help them to find the things that they love.

The focus of our pupil premium strategy is to support disadvantaged pupils to achieve that goal, including for those who are already high attainers. High-quality teaching is at the heart of our approach and we focus on areas in which our disadvantaged pupils require the most support such as reading and oral language skills, as well as addressing SEMH concerns through a variety of opportunities provided. Following pupil progress meetings, internal data analysis and teacher observations, we use targeted teaching and interventions as well as tutoring to support and scaffold those pupils who find learning difficult. Disadvantaged pupils are prioritised for support with extracurricular opportunities and ignition days and wider curriculum opportunities are planned with these children in mind to build cultural capital.

We aim for disadvantaged pupils to increase their attendance at school therefore closing the gap between themselves and their peers and therefore enabling them to experience the full learning experience at Handforth Grange. When reviewing attendance data, disadvantaged pupils are a key focus and families and key agencies are contacted to offer support where needed.

The pupil premium lead attends training as part of the Cheshire East pupil premium cluster group to ensure they are up-to-date with current research.

To ensure pupils achieve the best they can, we will:

- \*Support our disadvantaged pupils to access wider opportunities both within the school day and through extra-curricular activities
- \*Maintain an ethos where all staff have high expectations for disadvantaged pupils
- \*Act early to intervene at the point a need is identified

# **Challenges**

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	External and internal assessments and observations suggest disadvantaged pupils generally have greater difficulties with RWM than their peers.
2	Internal data has identified that 42% of children in receipt of PP also have special educational needs meaning that they are doubly disadvantaged.
3	External and internal assessments, observations and pupil voice discussions indicate that disadvantaged pupils generally have greater difficulty with the retention of key facts and knowledge.
4	Discussions with parents, staff and the children indicate that our disadvantaged pupils have less access to wider experiences and extracurricular activities outside of those provided by school (cultural capital)
5	Internal data indicates that communication and engagement with parents of disadvantaged children is lower than that of non-disadvantaged pupils
6	Referrals from staff and internal monitoring indicate that our disadvantaged pupils are more likely to have social, emotional and mental health needs
7	Our attendance data indicates that attendance among disadvantaged pupils has been 3% lower than for non-disadvantaged pupils. Our assessments and observations indicate that this has a resulting impact on pupil's academic progress and personal and social development

## **Intended outcomes**

This explains the outcomes we are aiming for by the end of our current strategy plan, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
For disadvantaged children to make the same expected or better progress in Reading and Maths compared to their peers.	*KS1 and KS2 SATs results show progress rates in-line or better  *Attainment for KS1 and KS2 reading is in-line or better than National data
For disadvantaged pupils to have improved oral language skills and vocabulary.	*Assessments and observations indicate improved oral language  *Triangulate data with engagement in lessons, book scrutiny and pupil voice discussions, and ongoing formative assessment.
To ensure disadvantaged pupils have targeted support from high-quality teaching inputs and activities and a clearly sequenced curriculum to build on previous knowledge.	*All staff to provide ordinary available inclusive provision following a clearly set out sequence which will be evidenced through monitoring books and lessons across the curriculum by subject leaders and SLT

To improve disadvantaged pupils attendance to close the gap with non-disadvantaged pupils and ensure attendance is above National figures	*Improved attendance demonstrated by the overall attendance gap between pupils and their non-disadvantaged peers being reduced below 3%
	*Pupils who are persistently absent being targeted with support to reduce the absence and the gap between non-disadvantaged peers. Overall persistent absence has been driven down for 3 years in a row
For disadvantaged pupils to have broader experiences that enrich their lives and enhance their cultural capital	*Handforth Experiences completed per year which provide a variety of opportunities  *Percentage of disadvantaged pupils attending extra-curricular activities in-line with non-disadvantaged pupils  *Disadvantaged children take part in wider curriculum activities to broaden their horizons.
To enable disadvantaged pupils with SEND to achieve a good level of progress from their starting points.	* internal termly data shows progress rates in-line or better than their peers

# Activity in this academic year

This details how we intend to spend our pupil premium funding **this academic year** to address the challenges listed above.

## Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £ £27,800

Activity	Evidence that supports this approach	Challenge number(s) addressed
Quality CPD for all staff to develop their knowledge of oracy, and use of active learning opportunities to reduce cognitive load to support metacognition and subject leadership development	Ensuring an effective teacher is in front of every class, and that every teacher is supported to keep improving is the key ingredient of a successful school and should rightly be the top priority for Pupil Premium spending" EEF A Tiered approach to Pupil Premium spending.  https://d2tic4wvo1iusb.cloudfront.net/production/documents/guidance-for-teachers/pupil-premium/Pupil-Premium-2023.pdf?v=1696434151  EEF evidence suggests use of oral language interventions has a positive effect of 6 months progress  https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/oral-language-interventions	2

Continued purchase of RWI and its training to secure excellent phonics teaching for all pupils	Phonics approaches have a strong evidence base that indicate a positive base that indicates a positive impact on the accuracy of word reading, particularly for disadvantaged pupils <a href="https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/phonics">https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/phonics</a>	1,2
Two HLTAs and SLT used to work across school to allow for smaller group sizes in RWM	Research by the Education Endowment Foundation (EEF) shows that during the primary school years, children get the most benefit from being in a small class. <a href="https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/reducing-class-size">https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/reducing-class-size</a>	1,2
We will access teacher training including the Maths Hub CPD and resources to enhance our maths teaching in line with DfE and EEF guidance.	The DfE non-statutory guidance has been produced in conjunction with the National Centre for Excellence in the Teaching of Mathematics, drawing on evidence-based approaches:  https://assets.publishing.service.gov.uk/media/6140b7008fa8f503ba3dc8d1/Maths guidance KS 1 and 2.pdf  The EEF guidance is based on a range of the best available evidence: https://educationendowmentfoundation.org.uk/ educationevidence/guidance-reports/maths-ks-2-3	1,2
We will access teacher training including Cheshire East school improvement pathways and NPQ leading Literacy qualification for writing leads across school.	Disadvantaged are 20% less likely than their peers to reach the expected standard in writing.  https://educationendowmentfoundation.org.uk/news/eef-blog-improving-literacy-in-key-stage-2	1

# Targeted academic support (for example, tutoring, one-to-one support, structured interventions)

Budgeted cost: £8,925

Budgeted 665t. 26,526				
Activity	Evidence that supports this approach	Challenge		
		number(s)		
		addressed		

Teachers and TAs to target disadvantaged pupils within additional intervention sessions including those with SLCN and CPD provided.	Considering how classroom teachers and teaching assistants can provide targeted academic support, including how to link one-to-one or small group intervention to classroom teaching is likely to be a key component of an effective pupil premium strategy <a href="https://d2tic4wvo1iusb.cloudfront.net/documents/support-for-schools/school-improvement-planning/Selecting_interventions_tool.pdf?v=1631171996">https://d2tic4wvo1iusb.cloudfront.net/documents/support-for-schools/school-improvement-planning/Selecting_interventions_tool.pdf?v=1631171996</a> Well-evidenced teaching assistant interventions can be targeted at pupils that require additional support and can help previously low attaining pupils overcome barriers to learning and 'catch-up' with previously higher attaining pupils. <a href="https://www.gov.uk/government/publications/supporting-the-attainment-of-disadvantaged-pupils">https://www.gov.uk/government/publications/supporting-the-attainment-of-disadvantaged-pupils</a>
---	--

# Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £ 25,440

Activity	Evidence that supports this approach	Challenge number(s) addressed
Attendance Lead to work closely with low attending families and to monitor and take action to address low and persistent absence. This may include use of the school minibus to collect children and funded places in breakfast club.	"Have a designated attendance champion in the senior leadership team with clearly assigned responsibilities"  https://www.gov.uk/government/publications/working-together-to-improve-school-attendance	6

To use interventions and the mental health lead to support pupils' with social and emotional wellbeing	There is extensive evidence associating childhood social and emotional skills with improved outcomes at school and in later life (e.g. improved academic performance, attitudes, behaviour and relationships with peers). <a href="https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/social-and-emotional-learning">https://educationendowmentfoundation.org.uk/education-evidence/teaching-learning-toolkit/social-and-emotional-learning</a>	5
To provide children with a broad wider curriculum including ignition activities, whole school experiences, residentials, and further opportunities to build cultural capital.	"All pupils, irrespective of background and barriers to learning, become happy, healthy, empowered adults who participate and contribute to society"  https://d2tic4wvo1iusb.cloudfront.net/production/ documents/guidance-for-teachers/pupil-premium/ Pupil-Premium-2023.pdf?v=1696434151	3
To support parents with children's readiness for school and encourage participation in the school community	"parental engagement in children's learning and the quality of the home learning environment are associated with improved academic outcomes at all ages" <a href="https://educationendowmentfoundation.org.uk/educationevidence/guidance-reports/supporting-parents">https://educationendowmentfoundation.org.uk/educationevidence/guidance-reports/supporting-parents</a>	4

Total budgeted cost: £ 62,165.00

## Part B: Review of the previous academic year

## **Outcomes for disadvantaged pupils**

We have analysed the performance of our school's disadvantaged pupils during the previous academic year (2023-24), drawing on national assessment data and our own internal data.

Excellent results for the end of KS2 this year with children in receipt of PP achieving in line or better with those not in receipt of PP in reading, writing and maths. Progress rates show PP making higher progress from their starting point than those not in receipt of PP especially in Reading and Writing.

### Attainment at the end of KS2 – Pupil Premium

- 80 % of children in receipt of pupil premium achieved the expected standard in reading.
- 100 % of children in receipt of pupil premium achieved the expected standard in writing.
- 100% of children in receipt of pupil premium achieved the expected standard in science
- 80% of children in receipt of pupil premium achieved the expected standard in maths.

#### Attainment at the end of KS1 – Pupil Premium

 100% of children in receipt of PP achieved the expected standard in Reading, Writing and Maths and a higher percentage of PP achieved Greater Depth in Reading and Maths than their peers.

#### Year 4 multiplication check

• 66% of children in receipt of PP achieved full marks in the check compared with 56.5% of their peers.

#### Attendance

Attendance of children receiving free school meals was 92.9% in 2023-24. This was 3% lower than those children not in receipt of FSM. This gap is smaller than DfE National where the difference between FSM and Non-FSM attendance is 5.3% and the national figures for attendance for children in receipt of FSM is 88.9%. This gap will continue to be a focus for this coming academic year building on the relationships built with families last year and work with the local authority.

#### **Wider Opportunities/ Personal Development**

The whole school performed the Wizard of Oz at the local theatre in Wilmslow with all children taking part as well as ignition activities every 3 weeks and many more opportunities throughout the year.

All extra-curricular clubs including sport, yoga, music provision and art and drama clubs provide at least 2 free places for children in receipt of PP and the percentage of children in receipt of PP is in line with their peers – 80% of children attend at least 1 club provided by school.

93.6% of children attended the Year 6 London residential with 100% of children in receipt of pupil premium attending.

84% of children attended the Year 5 residential to Conway with 80% of children in receipt of pupil premium attending.

92.2% of children attended the Year 3 and 4 residential with 77.8% of children in receipt of pupil premium staying overnight. However 100% of all children took part in at least part of the residential on a day trip to Chester.

37% of the children who went on the Spain residential were in receipt of PP funding.

Based on this information, it is clear that our strategy is having an excellent impact on attainment and progress for our disadvantaged pupils as well as providing cultural capital to pupils through extra-curricular activities and residentials. Our strategy continues to be effective and we have adapted where needed to meet the needs of our children for this academic year.

## **Externally provided programmes**

Please include the names of any non-DfE programmes that you used your pupil premium (or recovery premium) to fund in the previous academic year.

Programme	Provider
TT Rockstars	Maths Circle
RWI	Oxford Owl
Maths Hub	
English Hub	

## **Further information (optional)**

Use this space to provide any further information about your pupil premium strategy. For example, about your strategy planning, implementation and evaluation, or other activity that you are delivering to support disadvantaged pupils, that is not dependent on pupil premium or recovery premium funding.

### **Additional activity**

Our pupil premium strategy will be supplemented by additional activity that is not being funded by our pupil premium. This will include:

- Offering a wide range of high-quality music, drama, art and sporting extracurricular activities to boost wellbeing, and aspiration and help our children 'find the things that they love' as they prepare for adult life. Disadvantaged pupils will be encouraged and supported to participate through fully funded places.
- Utilising the apprentice levy to fund NPQs for teachers and the teaching assistant development pathway with Best Practise Network. The training will enable them to increase their expertise and develop in their career.

### Planning, implementation and evaluation

In planning our pupil premium strategy, we triangulated evidence from multiple sources of data including external and internal assessments, class book scrutinies, attendance and wellbeing data, along with pupil voice and conversations with teachers in order to identify the challenges faced by our disadvantaged pupils. We also joined the Cheshire East pupil premium cluster group to learn from other local schools about their effective strategies.

We combined this evidence with an evaluation of external research evidence to identify our approaches. Our research looked at DfE reports, studies and EEF research papers as well as attending the Cheshire East disadvantaged conference about effective use of pupil premium, the impact of disadvantage on educational outcomes and how to address challenges to learning presented by socio-economic disadvantage.

We used the EEF's implementation guidance to help us develop our strategy and used the DfE's 'menu of approach' to ensure the funding was used effectively to lead to better outcomes for our pupils.

We monitor and evaluate our strategy throughout the year, through pupil progress reviews and report to Governors termly as well as having further meetings with the Pupil Premium link Governor on how the strategy is going. We then adjust our plan over time as needed to secure better outcomes for our pupils.
